

PRE-IMPLANTATION GENETIC TESTING PRICE LIST

from 1st April 2021

Our price list is structured in sections to give you a clear view of the potential steps in your treatment and the associated costs, to allow you to make informed financial planning.

You will be required to pay the full cost of a fertility treatment prior to your nurse planning appointment apart from the fee for PGT, this will be required to be paid prior to the testing.

WORK UP AND GENETIC COUNSELLING

Non-refundable; Includes DNA reference collection and development of unique test that lasts for 2 years.

PGT-A	No charge
PGT-SR	£1,000
PGT-M	£2,000
Genetic Counselling (PGT-SR and PGT-M include one session)	£200

PGT

Pre-implantation Genetic Testing for Aneuploidies (PGT-A), Monogenic Diseases (PGT-M) and Structural Rearrangement (PGT-SR). Includes biopsy and testing and excludes production, freezing, storage and transfer of embryos (see below for cycle charges).
